

Ultra Therm (120 capsules)  
Stock #: 3077

Rev up your metabolism with Ultra Therm®.

This thermogenic formula helps you break down fat while increasing calorie burn.

Rev Up your Metabolism

Ultra Therm® features a powerful combination of Green coffee bean extract, Green tea and a sustained-release herbal energy blend to rev up metabolism and support physical endurance.

When added to a healthy diet and exercise program, Ultra Therm® supports calorie burn throughout the day, which aids the break down of body fat.\*

Boost your metabolism and start achieving your weight management goals with Ultra Therm®.

**Green tea** has been linked to good health for centuries. Beyond already documented benefits for cardiovascular health, brain health and healthy aging, green tea extract's active components—including the powerful antioxidant polyphenol epigallocatechin gallate (EGCG)—now show promise for weight loss. Researchers believe green tea may have a thermogenic (calorie- and fat-burning) effect, and also may inhibit fat absorption. Plus, some studies show that green tea may have beneficial effects on maintaining cholesterol levels already within the normal range.\*

**Green coffee bean extract** contains chlorogenic acid (CGA), a natural antioxidant compound thought to be the active ingredient. Green coffee bean may help block sugar absorption, promoting satiety and healthy blood sugar levels already in the normal range. In initial studies, taking green coffee bean extract has resulted in weight loss, much of it fat, in overweight individuals.\*

**Sustained-release energy blend**, which includes a patent-pending form of caffeine, provides safe, lasting energy support that may increase energy expenditure throughout the day, increasing calorie burn rate and supporting moderate weight loss over time. This proprietary energy blend eliminates the spike and subsequent crash typically associated with caffeine. In fact, only ½ of the caffeine is released initially while the remaining caffeine is slowly released to sustain the effects for several hours.

**Guarana** provides a natural source of caffeine to help energize the body, reduce fatigue, increase mental focus and boost metabolism. Guarana has become a popular energy supplement due to its high caffeine content. Caffeine has been shown to improve mood and aid weight loss and may work best when combined with the polyphenol compounds in green tea. The natural caffeine in guarana interferes with the break down of a key mediator in the lipolytic (fat burning) process. Guarana is also a rich source of antioxidant compounds.\*

**Yerba mate leaves** are a natural source of caffeine and health-supporting nutrients like vitamin C, certain Bvitamins, antioxidant compounds, and minerals, including potassium, magnesium, calcium and iron. The natural caffeine in yerba mate interferes with the break down of a key mediator in the lipolytic (fat burning) process. Caffeine has also been shown to improve mood and aid weight loss and may work best when combined with the polyphenol compounds in green tea. Yerba mate may help boost metabolism and increase the amount of fat burned for fuel.\*

Ultra Therm® contains 150 mg of caffeine per serving—slightly more than a cup of coffee.

#### **Benefits:**

- Supports calorie burn throughout the day
- Aids in the breaking down of body fat

#### **Ingredients:**

Proprietary blend of Green tea leaf extract, Caffeine, Green coffee bean extract, Guarana seed extract, and Yerba mate leaf extract.

#### **Quality Assured:**

Your body craves pure, potent and effective vitamins, minerals and other nutrients.

We're obsessed with delivering them, so you get the benefits you expect and the results you deserve.

**Recommended Use:**

Take 2 capsules twice daily.

Contains 75 mg caffeine per capsule.

Too much caffeine may cause nervousness, irritability, sleeplessness, and occasionally, rapid heartbeat. Do not exceed recommended dosage.

Not recommended for use by children under 18 years of age. Keep out of reach of children.
