

Blood Pressurex (60 capsules)
Stock #: 554

Defend your body and improve your cardiovascular function with an all-natural blend of olive leaf extract, grape seed extract, L-arginine, and vitamin E.

Using a unique formula, Blood Pressurex provides support for healthy blood pressure and circulatory system functioning for better overall health.

Designed to bolster healthy cardiovascular function within the body, Blood Pressurex was developed with the help of experienced herbal practitioners and ingredients selected for their exceptional quality and purity. We know because we've been to the source!

Blood Pressurex promotes optimal blood flow, supports blood pressure levels already in the normal range, and supports blood vessel and cardiovascular health.

The main ingredients in Blood Pressurex are the powerful herbs *Coleus forskohlii*, olive leaf extract, hawthorn berries extract and goldenrod; the amino acid arginine; and the antioxidants vitamin E and a powerful, proprietary grape seed extract.

These ingredients are combined to provide herbal support for a healthy circulatory system.

Multiple scientific studies suggest *Coleus forskohlii* provides significant nutritional attributes for the circulatory system. *Coleus* is a unique herb that causes a shift from a more fatty body mass to a more lean body mass, which benefits overall health. The effect can be measured by decreases in the waist-hip ratio and the body mass index.

Olive leaf extract supports cardiovascular health and has antioxidant properties. It supports several circulatory needs all at once, including blood pressure balance, arterial health, heart rhythm and protection against free radicals. Olive leaf extract naturally contains the powerful plant polyphenol oleuropein, which helps protect against the oxidation of LDL or “bad” cholesterol.

Hawthorn berries have long been used to support the heart muscles and cardiac function. Hawthorn berries contains flavonoids and other compounds (volatile oils, saponins, alkaloids, vitamins and minerals) that benefit circulatory system health.

L-arginine is an amino acid that supports cardiovascular health and boosts energy levels. In the body, L-arginine is converted to nitric oxide, which causes relaxation of blood vessels and regulates blood vessel tone and flexibility. Larginine also supports the immune system and brain health.

Vitamin E is a powerful antioxidant that support circulation, helps to maintain the fluidity of the blood, and is necessary for maintenance of the skeletal, cardiac and smooth muscle membranes. Vitamin E also assists in the production of certain enzymes that are needed to maintain overall health, prevent premature aging and keep tissue supple.

Grapes have a long history of traditional medicinal use dating back to ancient Greece. More recent research has focused on the potential of phytonutrients like resveratrol and proanthocyanidin that are found in the seed and skin of the grape. Grape seed extract contains an array of bioflavonoids, antioxidants and polyphenols. Studies suggest that grape seed extract may be beneficial for maintaining blood pressure levels and may contribute to overall cardiovascular health.

Benefits:

- Provides herbal support for blood pressure maintenance already within the normal range.
- Supports a healthy circulatory system.

Ingredients:

15 IU vitamin E, l-arginine, olive leaf extract, grape seed extract, coleus root extract, hawthorn berries extract and goldenrod aerial parts.

Quality Assured:

Nature's Sunshine Quality Assurance staff audited our olive leaf supplier in Spain when we became their first customer in the western hemisphere. Sustainably sourced, and manufactured to GMP standards, our olive leaf extract is pesticide free, vegan and non-GMO, and it is Kosher- and Halal-certified.

Our grape seed extract comes from the impeccable vineyards of California's Central valley. Certified by the California Sustainable Winegrowing Alliance, our partner boasts ISO9001 quality standards with full transparency and traceability. And in their dedicated facility, they use a patented hot water extraction process to take full advantage of natural grape seed micronutrients.

Recommended Use: Take 1 capsule with a meal three times daily.

CAUTION: Consult your health care professional before taking this product if you currently have high blood pressure, are pregnant, nursing, or taking prescription medication. Do not discontinue use of your prescription medication without your doctor's approval. *
